DETAILED ACTION

Election/Restrictions - Election of Species

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species from which Applicant must elect are as follows:

SPECIES I - Figs. 1, 2(a), 2(b), and 2(c);

OR

SPECIES II - Figs. 3(a), 3(b), and 3(c).

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3673

The claims are deemed to correspond to the species listed above in the following manner:

SPECIES I (Figs. 1, 2(a), 2(b), and 2(c)) - Claims 4-6; and

SPPECIES II (Figs. 3(a), 3(b), and 3(c)) - Claims 4.

Independent claim 4 appears to be generic.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

SPECIES I (Figs. 1, 2(a), 2(b), and 2(c)) - the special technical feature is the flaps (18).

SPECIES II (Figs. 3(a), 3(b), and 3(c)) - the special technical feature is the narrow band or strip (24) so that the top and bottom panels are secured to each other all the way around (an especially at the mid-section, unlike the Species I embodiment).

A telephone call was made to Attorney John V. Stewart on December 16, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
